Before you begin:

- Please take note of different standards and regulations that are dictated by your local plumbing codes. This product is certified in accordance with North American building codes.
- We insist that you use the services of a professional plumber with experience in the installation of similar fixtures.
- Ensure that the piping system is well secured to prevent rattling, vibration and banging noises caused by a water hammer. We also recommend that you use water hammer arrestors.
- Remove the cartridge and purge the water supply system for around 30 seconds. Then carefully reinstall the cartridge.
- After installation,check and ensure that there are no leaks.
